Edgewood Faculty Panel: How I use Universal Design to Increase Student Motivation

Description:

Universal Design for Learning (UDL) offers a wide variety of strategies for creating highly motivating learning experiences for college students. Although the strategies were developed specifically to create more inclusive environments for students with disabilities, most of our faculty members have found that they have a high impact on student motivation and learning in general. Join our virtual brown bag lunchtime webinar to hear Edgewood faculty members discuss what they’ve learned about how to motivate and engage students using multiple means of expression, engagement, and representation.
